

Curriculum Plan			Subject		CS/ICT		Year	9	
			W/C 2 nd November	W/C 9 th November	W/C 16 th November	W/C 23 rd November	W/C 30 th November	W/C 7 th December	W/C 14 th December
How you will access home learning			All presentations and worksheets will be made available through MS TEAMS using the team created for that IT group. Please look under the section entitled files. We are planning on creating class notebooks to support students within MS TEAMS so these will be phased in and students will be informed when to swap to this area in MS TEAMS.						
How you be able to interact with your teacher and gain feedback on your work			MS TEAMS will provide a medium for the distribution of materials and may have further questions in the chat on the general channel but email should be used as the means of contacting the teacher directly for feedback and questions.						
Retrieval Focus How we will help you to recall previously learnt knowledge			The unit will be a new one but may consolidate knowledge, skills and understanding from KS2. Quizzes will be used in the schools Moodle platform and links will be shared through MS Teams. The use of an IT Journal to support and encourage students will be made available in MS Teams.						
New Learning	What you will be learning about this week		In this unit students will undertake a creative project to analyse, plan, shoot and edit a short advertisement for their local area. The clip should ideally be limited to 30-60 seconds in order to fit within the timescales allowed. Pupils will first analyse existing TV advertisements, movie clips or film trailers, then storyboard their ideas in small groups and shoot each scene. They will then edit the clips gathered in filming into a short movie or advert.						
	How we will teach you the new knowledge or ideas		Students will be taught through; <ul style="list-style-type: none">MS TEAMS.WorksheetsPractical tasks using video editing softwareLow stakes knowledge quizzes						
	Activities that will help you learn and practice what you've been taught		Pupils will put evidence of the movie they created into an Assessment Portfolio. They will also answer questions on the subsections of film creation in order to demonstrate understanding. Regular teacher assessment, including questioning and observation will be used in each lesson in order to reinforce the evidence of understanding in the Assessment Portfolio.						
	What you can do if you're stuck		Firstly if a student is stuck on something in one of the lessons they should review the content as the directions to answers are always provided. If students are still struggling then students can contact the teacher through email, or MS TEAMS.						

Checking in

How we will check in with you to support you with your remote learning

MS TEAMS allows teachers to see progress on the worksheets and screen grabs of the practical tasks.
We also use the IT Journal for the students to update their teacher on their progress through each section.
If no progress is shown in either location first contact is to be made through email to student and HoY.
