	Activities that will help you learn and practice what you've been taught	It can be confusing opening up some resources and knowing where to start! So begin by looking at the PowerPoint and reading each slide and following the instructions carefully (if there is a link to a video, watch it, if there is a slide with a group of questions, answer them). Sometimes there will be voiceover to guide you when needed, or a live lesson if it needs further guidance with a tricky concept!			
	What you can do if you are stuck	Firstly, check the PowerPoint again and read or listen to the guidance. But please don't sit at home stuck! Contact us! You can write a comment in the chat function in our teams group, or write a SMHW comment.
