

Curriculum Plan		Subject	Biology		Year	10T5
Spring 2		W/C 22nd February		W/C 1st March		W/C 8th March
How you will access home learning		The PowerPoint and lesson materials will be available in our Year 10 Triple group on Microsoft Teams. Lessons take place at 1.20 on Tuesdays. The recording of the lesson will be available on teams, as is the powerpoint and all assignments. All resources also available on the G-drive: G:\Science\Home learning biology\Year 10\Triple\Triple Unit 5				
How you be able to interact with your teacher and gain feedback on your work		You can interact with your teacher by asking any questions about the work by using the chat function on your Year 10 Microsoft Team Class. Your teacher will monitor your scores on teams assignments quizzes and other work set. You will be asked to submit written work for feedback through the online submission function on teams assignments.				
Retrieval How we will help you to recall previously learnt knowledge		Five knowledge recap questions about the previous learning will be at the start of each PowerPoint which will be put on MS Teams. These are self marked using Microsoft forms.				
New Learning	What you will be learning about this week	Unit 5: 10 - required prac (seedlings)	Unit 5 Recapping Hormones	Unit 5: 12 - controlling body temperature		
	How we will teach you the new knowledge or ideas	New knowledge will be taught through PowerPoint content. You will use diagrams to represent the affect auxin has on plant growth. You will also carry out a required practical where you will grow seeding in different conditions and observe how they respond to light.	No new knowledge will be taught this lesson.	New knowledge will be taught through PowerPoint content. You will perform a practical to identity whether sweat really works in cooling down the body. You will also answer exam based questions on the uses of plant hormones in real world examples.		
	Activities that will help you learn and practice what you've been taught	Activities will be built into the PowerPoint for you to complete as you follow the instructions and slides. These will be broken down into short tasks. You will complete a range of tasks including labelling diagrams, attempting exam style	Activities will be built into the PowerPoint for you to complete as you follow the instructions and slides.
