

Curriculum Plan		Subject	Double Award		Year	9D4
Spring 1		W/C 10 th January	W/C 17 th January		W/C 24 th January	
How you will access home learning		You should check TEAMS at the start of your lesson. Here your teacher will give you instructions on how to access the work for this lesson. This will include: If and when you should join a live teams meeting, tasks to complete and links online learning resources. If a lesson PowerPoint is required for your work, this will be saved in the files section of the team.				
How you be able to interact with your teacher.		If you have any questions about your learning you should contact your teacher on teams by commenting on the post where they set you work				
Retrieval How we will help you to recall previously learnt knowledge		Each lesson will include a retrieval quiz. This quiz will primarily be on information from the previous lesson but can include questions from previous topics as the teacher feels is required.				
New Learning	What you will be learning about this week	This week you will be learning about the parts of a microscope	This week you will be learning about the animal and plant cells		This week you will be learning about Eukaryotic and Prokaryotic cells	
	How we will teach you the new knowledge or ideas	The relevant ppt and any additional material needed for you to take this lesson remotely can be found on the link below. Please read, answer and assess any questions indicated. G:\Science\Home learning biology\Year 9\Unit 1 (double and triple) Cell biology\1 Cell biology - Microscopes	The relevant ppt and any additional material needed for you to take this lesson remotely can be found on the link below. Please read, answer and assess any questions indicated. G:\Science\Home learning biology\Year 9\Unit 1 (double and triple) Cell biology\3 Cell biology - Animal and plant cells		The relevant ppt and any additional material needed for you to take this lesson remotely can be found on the link below. Please read, answer and assess any questions indicated. G:\Science\Home learning biology\Year 9\Unit 1 (double and triple) Cell biology\4 Cell biology - Eukaryotic and prokaryotic cells	
	Activities that will help you learn and practice what you've been taught	The GCSE Physics textbook can be accessed online through Kerboodle. We also recommend completing quizzes on the SENECA learning platform. Reading through the relevant pages for a lesson help you learn the key points from that lesson. Your teacher will set practice activities, such as quick check questions and exam style questions, as part of each lesson.				

What you can do if you
are stuck

If you have any problems understanding the content you should use the online textbook or Seneca platform to support you. If you are still stuck you should contact your teacher through TEAMS or via email.

		W/C 31st January	W/C 7 th February
