

Curriculum Plan		Subject		Year	
Spring 1		W/C 10 th January	W/C 17 th January	W/C 24 th January	
How you will access home learning		You should check TEAMS at the start of your lesson. Here your teacher will give you instructions on how to access the work for this lesson. This will include: If and when you should join a live teams meeting, tasks to complete and links online learning resources. If a lesson PowerPoint is required for your work, this will be saved in the files section of the team.			
How you be able to interact with your teacher.		If you have any questions about your learning you should contact your teacher on teams by commenting on the post where they set you work			
Retrieval How we will help you to recall previously learnt knowledge		Each lesson will include a retrieval quiz. This quiz will primarily be on information from the previous lesson but can include questions from previous topics as the teacher feels is required.			
New Learning	What you will be learning about this week	Energy end of topic test review- We will go over the energy end of topic test completed before Christmas and identify area's you may need to focus on revising	Vectors and Scalars Pg 98 of the "Physics for combined sciences" book accessible on kerboodle	Forces between objects Pg 100 of the "Physics for combined sciences" book accessible on kerboodle	
	How we will teach you the new knowledge or ideas	The teacher may set you a PowerPoint lesson or worksheets with step by step explanations, useful images, and diagrams to help you learn. Sometimes your teacher may decide to run a live TEAMS lesson. You will be notified of this via Teams. Activities will be set for you to complete within the weekly lesson PowerPoint or Microsoft Teams lesson. You will be given answers to self-assess your work. When appropriate there will be a quiz on show my homework, Kerboodle or Seneca for you to complete after you have finished the work for this week			
	Activities that will help you learn and practice what you've been taught	The GCSE Physics textbook can be accessed online through Kerboodle. We also recommend completing quizzes on the SENECA learning platform. Reading through the relevant pages for a lesson help you learn the key points from that lesson. Your teacher will set practice activities, such as quick check questions and exam style questions, as part of each lesson.			

What you can do if you
are stuck

If you have any problems understanding the content you should use the online textbook or Seneca platform to support you. If you are still stuck you should contact your teacher through TEAMS or via email.

		W/C 31st January	W/C 7 th February
